Step 6 – Run your torrent client and select the torrent you just downloaded (on Linux, this can be the latest version as found in Transmission). Click the Browse button at the bottom of the page and select the file (on Windows, this can be found in the torrents folder) you downloaded earlier. A dialog box will pop up that will prompt you to allow Torrent Sync access. In the Pop-up menu you may select Yes to accept Torrent Sync access, or click No to block. Once enabled, torrents will be automatically synced to your Mac or PC.
